PROFESSIONAL SUMMARY

A young professional with a background in environmental science and computer science, currently working as an Administrative & Digital Content Coordinator. Passionate about leveraging geospatial tools and technology for sustainable environmental management and eager to deepen expertise through the MGEM program.

WORK HISTORY

The Climate Reality Project Canada
Accounting & Administration Coordinator | May 2024 - present
Digital Content Coordinator | August 2023 – May 2024
Montreal, Quebec

- Assisted with budget preparation, payroll management, and accounts payable/receivable, including processing payments and issuing cheques.
- Performed monthly bank reconciliation, prepared financial reports, and ensured compliance with IT and HR protocols.
- Created and edited digital content for social media, newsletters, and the website, including content in both English and French.
- Developed an interactive dashboard, providing a user-friendly interface for stakeholders to engage with important data.
- Managed large datasets by performing data cleaning, updating records in the database, and entering new data with a focus on accuracy and efficiency.

Community Knowledge Exchange – Operations Coordinator (Canada Summer Jobs program position)
Remote |Ottawa, Ontario
06/2022 – 08/2022

- Collaborated closely with the managing director to develop and maintain values-aligned administrative processes.
- Supported the development and shaping of programming shifts towards a more community-centered and decolonial approach.
- Worked closely with team members to coordinate and track activities and contributions to the organization's annual strategic goals.
- Identified fund and partnership opportunities, which included working with the team to develop engagement strategies.

SKILLS

- Bilingual (English/French)
- GIS (ArcGIS Pro, QGIS)
- Programming (Python, R, JavaScript)
- Spatial data processing and analysis
- Verbal and written communication
- Exceptional problem-solving
